Team Involvement in Demonstration

Date	01 October 2026
Team ID	SWTID-2026-2949
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Team Member 1 (Team Lead)	Presenter & Coordinator	Introduction, problem statement and project overview	Introduced the project, explained the ticket classification problem and coordinated the demo flow.	Active
2	Team Member 2	Flow Designer Presenter	Flow Designer workflow design	Demonstrated the flow trigger, conditions and actions that classify and assign incoming tickets.	Active
3	Team Member 3	Live Demo Operator	Live ticket creation and auto classification	Created sample tickets live and showed automatic category, priority and assignment group updates.	Active
4	Team Member 4	Technical Explainer	Configuration, tables and ACL setup	Explained the ServiceNow tables, fields, roles and access controls used in the solution.	Active
5	Team Member 5	Results & Testing Presenter	Test cases and results	Presented test scenarios, accuracy of classification and observed outcomes.	Active
6	Team Member 6	Q&A and Closing	Scalability plan, future roadmap and conclusion	Presented the scalability and future plan, handled evaluator questions and concluded the demo.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Team Member 1 coordinated the demo, assigned sections and managed timing.
Overall Team Coordination Rating (1-5)	5 – Smooth handovers between presenters and good time management.
Any issues during demo	Minor delay in the ServiceNow instance loading while creating the first live ticket.
How issues were resolved	The presenter continued with prepared screenshots and explanation until the instance loaded, then resumed the live demo.
