No. of Functional Features Included in the Solution

Date	01 October 2026
Team ID	SWTID-2026-2949
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Incident Intake	Users submit an incident with a short description and details through the Service Portal.	Service Portal / Incident form	Done	0.5
2	Flow Trigger	The flow starts automatically when an incident is created or its short description is updated.	Flow Designer trigger	Done	0.5
3	Keyword Classification	Reads keywords in the short description and sets the category and subcategory.	Flow Designer + Decision Table	Done	0.5
4	Auto Assignment	Sets the assignment group automatically based on the classified category.	Flow Designer (Update Record)	Done	0.5
5	Priority Rules	Raises priority when keywords such as outage or down are found.	Flow Designer conditions	Done	0.5
6	Default Triage Queue	Sends tickets with no matching rule to a default triage group so none are lost.	Flow Designer (If / Else)	Done	0.5
7	Keyword Rules Table	Stores keyword-to-category-to-group rules so admins can edit them without changing the flow.	Decision Table	Done	0.5
8	Email Notifications	Notifies the assignee and the caller after the ticket is classified and assigned.	Email Notifications	Done	0.5
9	Role-Based Access	Only authorised roles can view tickets or edit the flow and rules.	Roles and ACLs	Done	0.5
10	Classification Dashboard	Shows auto-classified vs manual tickets, misroute rate and SLA trends.	Reports and Dashboards	In Progress	0.5

Feature Summary:

Metric	Count / Value
Total Features Planned	10
Total Features Implemented	9
Core / Must-Have Features	7
Additional / Nice-to-Have Features	3
Features Tested & Verified	9

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Incident Intake, Classification Dashboard
2	Backend / Logic	5	Flow Trigger, Keyword Classification, Auto Assignment, Priority Rules, Default Triage Queue
3	Database / Storage	1	Keyword Rules Table (Decision Table)
4	API / Integration	1	Email Notifications
5	Security / Authentication	1	Role-Based Access (Roles and ACLs)
